The Gentle Approach

“

Think Over It!

"Have you ever walked away from a situation, wishing you had acted better? Or felt a wave of stress, with no one to talk to? What if you had a gentle voice to guide you, not just on what's right, but on what's good for you?"

The Dual Crisis: Disconnect and Erosion

Systemic Gaps

- *Lack of consistent and engaging civic and moral education*
- *Traditional methods (posters + lectures)*
- *No practice, AI driven support system for daily decision making*

Visible Consequences

- *Dirty public spaces from littering*
- *Rising youth anxiety & loneliness*
- *Dirty public spaces from littering*

The Core Need

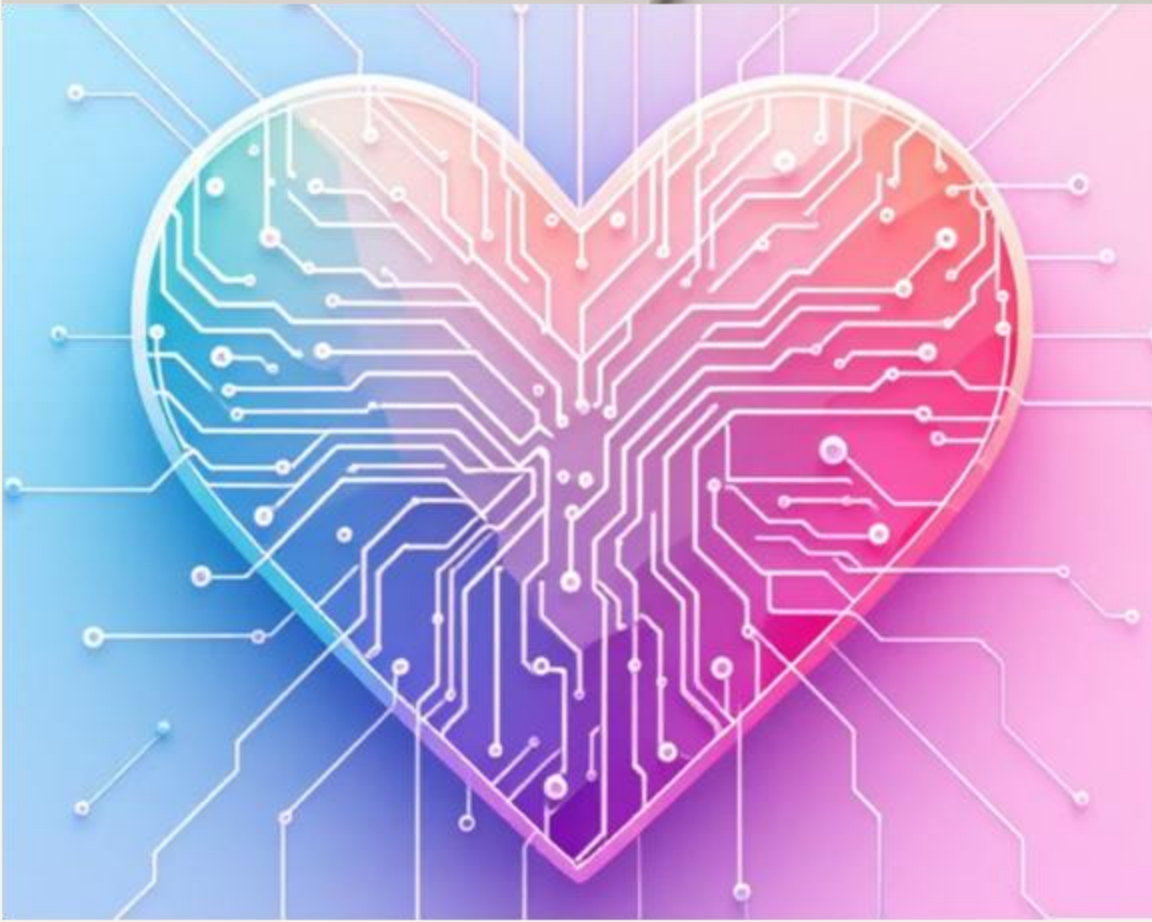

- *A compassionate AI companion that offers gentle civic reminders and non-judgmental mental wellness support.*

A Companion for Moral Sense

Our Vision: Technology with Feeling

We asked a simple question: What if technology could **feel**? What if it could be a companion for your moral sense and your mind? This is **'Mann Ki Awaaz'**—The Virtual Guide Within You.

- 1 Empathy- Your always available companion
- 2 Guidance- Real-time, gentle approach for daily acts
- 3 Mindfulness- Practical tools Exercise

Core Components Used:-

Raspberry Pi 5

The brain of the "Mann Ki Awaaz" - The Virtual Guide Within You

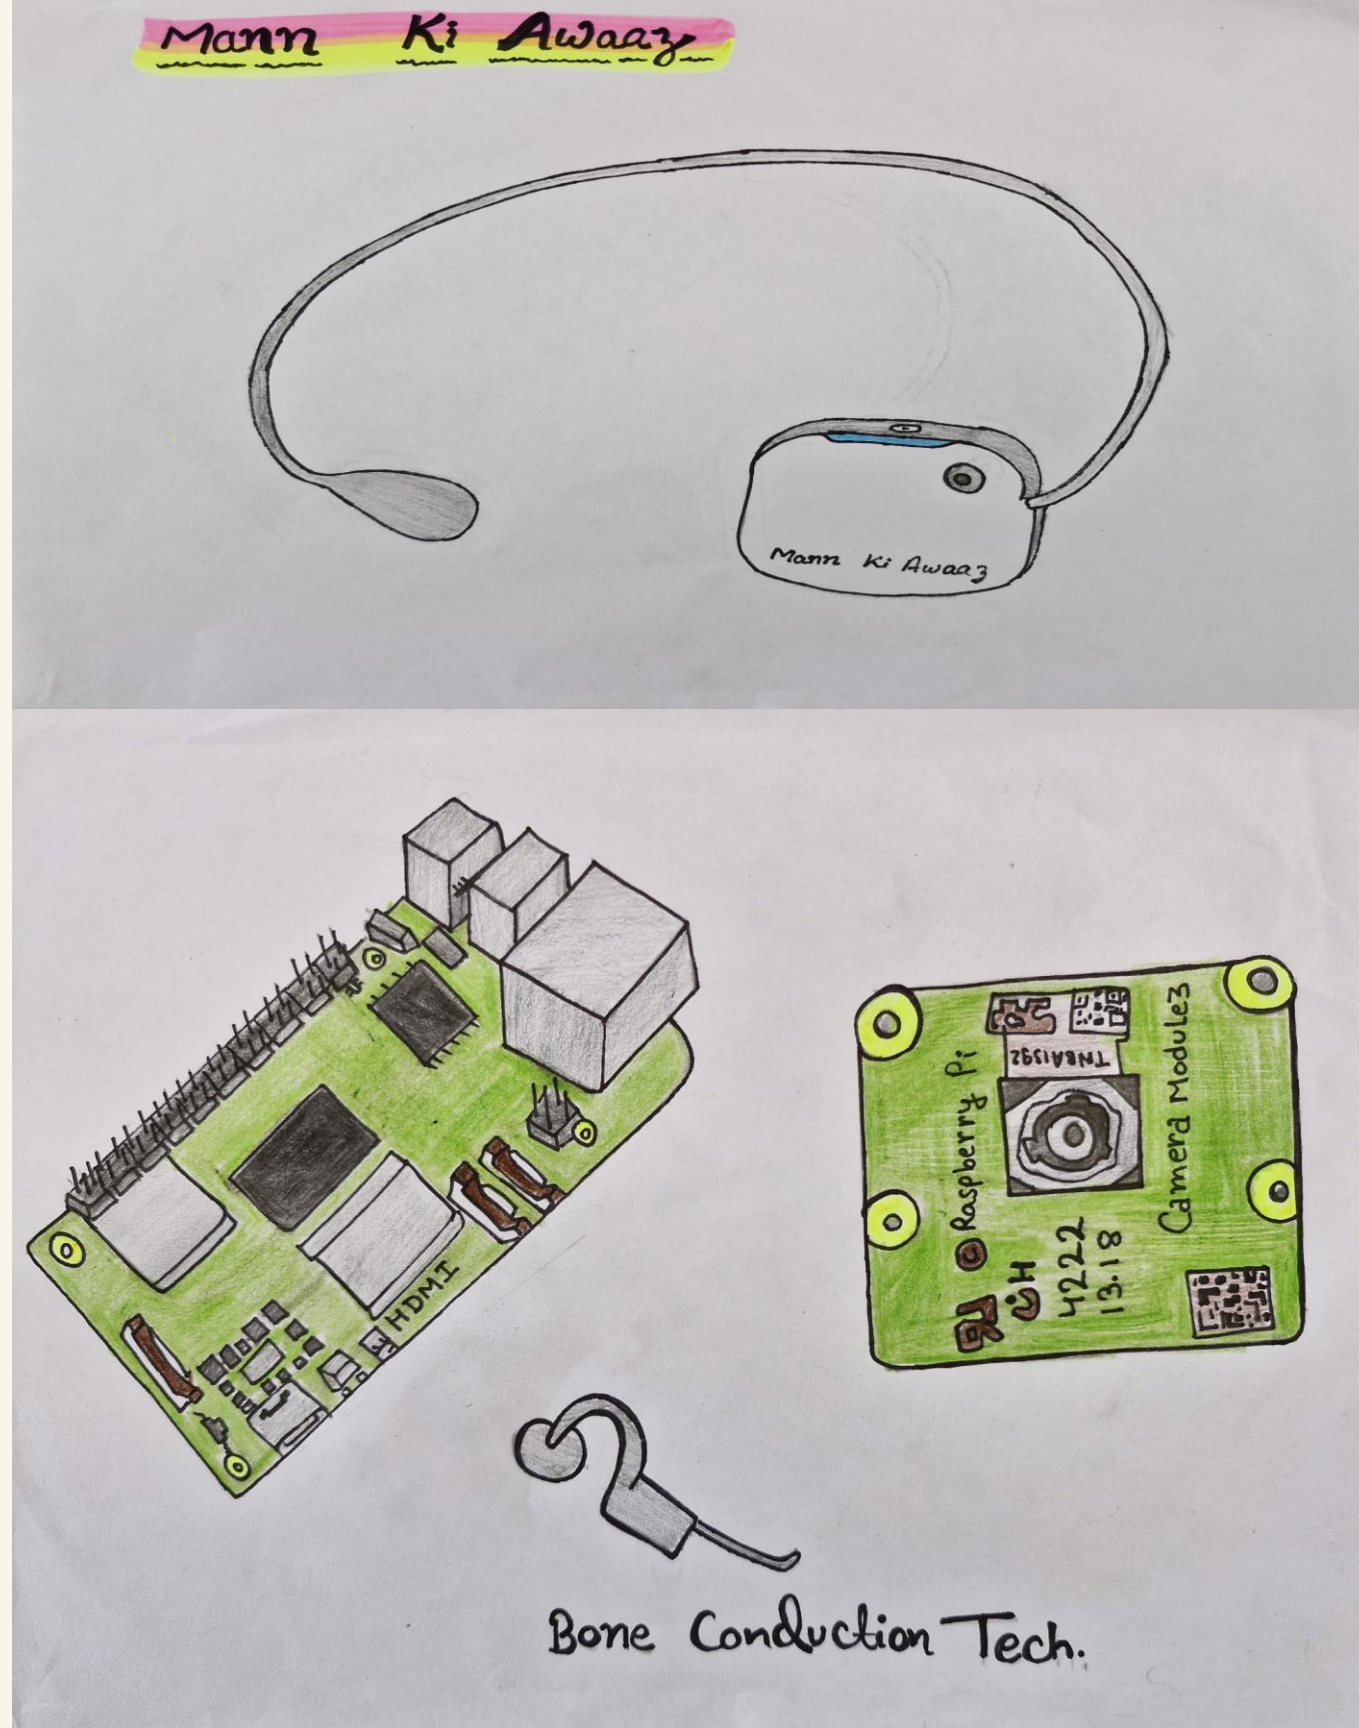

Bone Conduction Technology

Used for taking in the input and producing the output.

Raspberry PiCam

Used to observe the surrounding and respond accordingly with the help of LLMs.

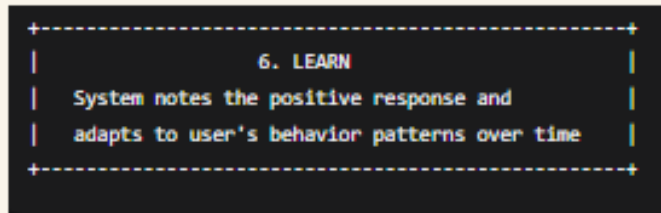

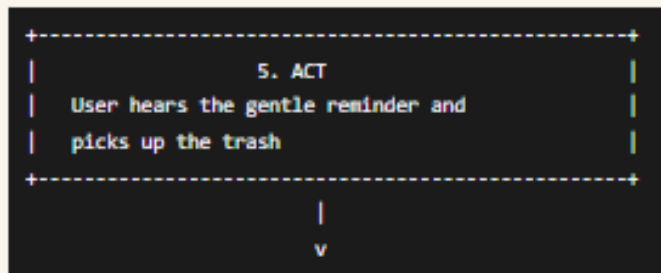

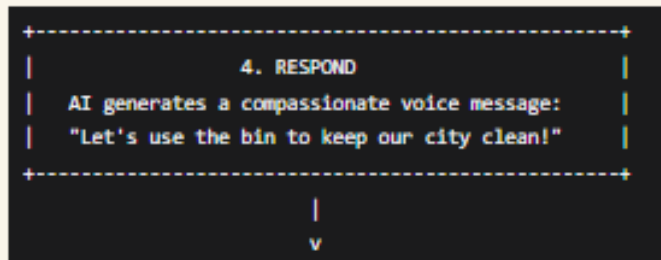

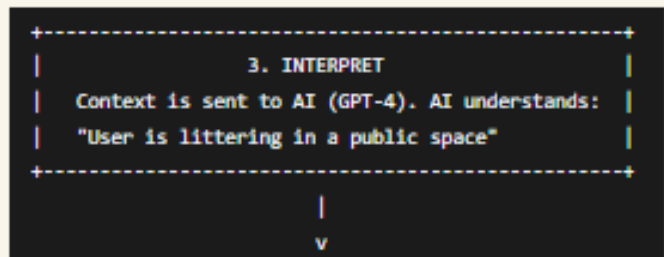

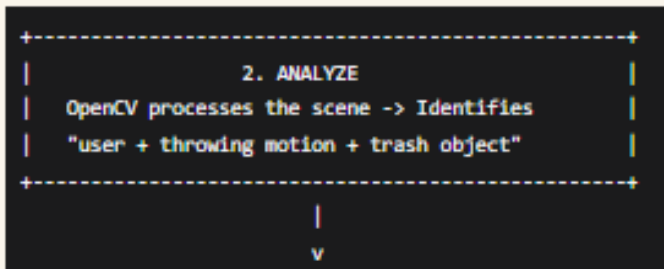

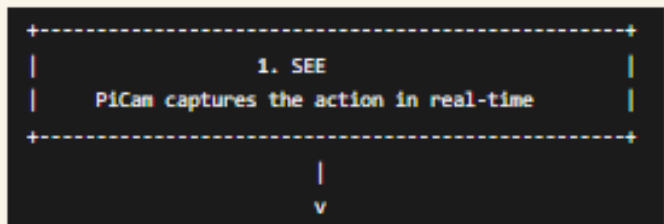

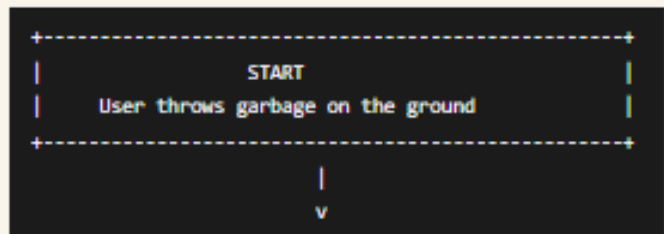

The Technology: Intelligent and Compassionate

Principle & Working

Consider a scenario;

When a user of 'Mann Ki Awaaz'- throws the stuff here and there!

Planting Seeds for a Better Society

The impact of 'Mann Ki Awaaz' spans across demographics, helping individuals thrive and communities flourish.

Mann Ki Awaaz: Real-Time Transformation

Our discreet, AI-powered wearable seamlessly integrates into your daily life, providing real-time guidance exactly when you need it.

As Your Civic Guide

*The camera sees the world as you do. If you're about to litter, a calm voice suggests: **'Let's find a bin to keep our city beautiful.'** It's a gentle, real-time nudge toward better civic behavior.*

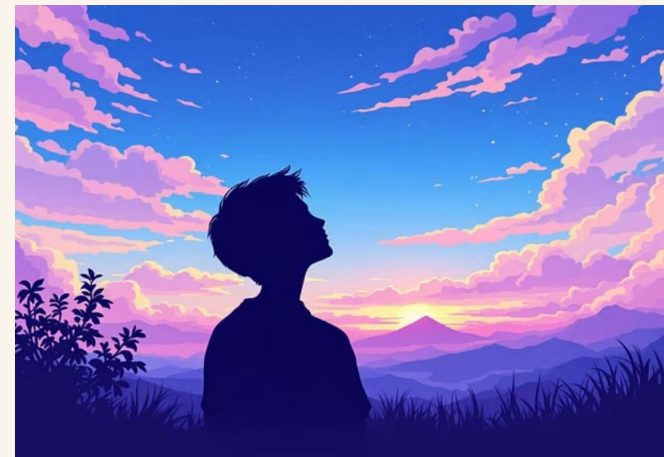

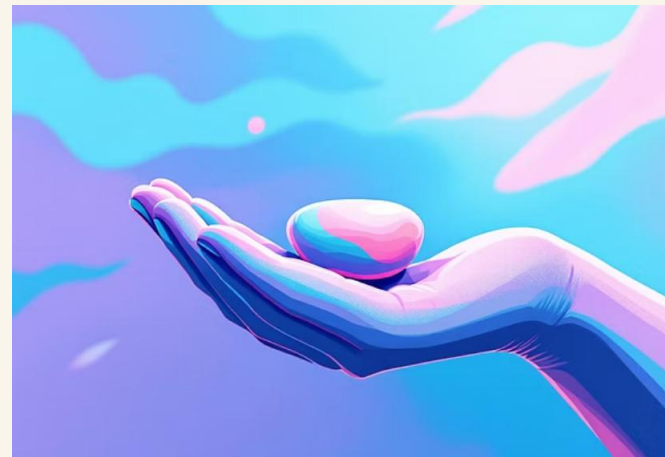

As Your Mental Companion

When feeling low or stressed, just talk to it. The advanced AI offers empathetic listening, supportive conversation, or suggests a simple breathing exercise. It's your 24/7, judgment-free confidant.

A Voice to Care

Join the Movement

With 'Mann Ki Awaaz', we give technology a heart. We give it a voice. Not to command, but to care. This innovation invites us to become better versions of ourselves.

"Thank you. Join us in building a future where technology doesn't just think for us—it helps us become better versions of ourselves."
